Implant Restorations

Spectrum Laboratories has extensive experience in all types of implant systems. In order to provide the best service for your implant cases, it is highly recommended that you consult with Spectrum before you begin your implant case. We can help you in the planning of the case and discuss various restorative options. At that time, fees for specific services can be quoted, which can help you greatly when treatment planning the case and presenting your patient with a fee.

In-Lab Time Schedule

Porcelain Fused to Metal	10 days
All Metal Restorations	10 days
All Ceramic Restorations	10 days
Diagnostic Wax-Ups	7 days

Implant Cases: Time in lab based on complexity of the case.
Please call for specific delivery times for implant cases.

RUSH Cases: There may be an extra fee for rush cases. Please call before scheduling the Patient for a completion date.
